Summary

Frontend-focused Software Engineer eager to take on new challenges and grow my skills. Quick at learning new technologies and frameworks, working well in teams, and delivering efficient and user-friendly solutions. Committed to completing projects successfully while ensuring a great user experience and smooth performance.

Experience

Software Engineer

July. 2023 – Present

Incedo Inc

JavaScript, Node.js, React.js, MySQL, AWS, Azure

- **Frontend Developer** with hands-on experience in building and optimizing UI components.
- Improved the website's responsiveness and user experience across all devices by refactoring the **front end with React.js**, ensuring rapid adaptation to evolving client requirements and reducing development time by 20%.
- Developed features and made design enhancements based on **client requirements**, ensuring the final product met expectations while improving efficiency and **reducing delivery time** through optimized workflows.
- Established a **structured process** for regular client updates and feedback loops, ensuring **project goals** remained aligned; contributed to a successful partnership that resulted in a **15% increase** in repeat business
- Developed and optimized reusable React components to enhance **maintainability and scalability**, resulting in a **20% reduction** in development time for new features.
- Utilized state management tools like **Redux** to streamline data flow and improve performance by **25%**.
- Integrated third-party libraries and APIs, enhancing dashboard functionality and achieving a **30% increase in data processing efficiency** while ensuring seamless data integration.
- Recognized with the **MAD (Made a Difference) award** for outstanding performance and contributions to project success.

Projects

Expense Tracker | *HTML, CSS, JavaScript, MERN Stack (MongoDB, Express.js, React.js, Node.js)*

- **Full-Stack Development:** Utilized the comprehensive capabilities of the MERN stack to create a seamless and efficient expense tracking application.
- **State Management with Redux:** Integrated Redux for centralized state management in React, significantly enhancing the application's scalability and maintainability.
- **MVC Architecture:** Applied the Model-View-Controller (MVC) pattern in the backend to enhance code organization, maintainability, and scalability.

Investment Portal | *React.js, .NET, Azure*

- Collaborated with a team of **8 members** to develop a comprehensive investment portal, enabling users to make informed investment decisions and achieve their financial goals.
- Enhanced **user engagement** through intuitive navigation, data visualization, and personalized recommendations.

Technical Skills

Languages : C++, JavaScript, SQL, HTML5, CSS

Technologies/Frameworks: React.js, React-Redux, Node.js, Express.js, MySQL,

Others: Git, AWS Services, Visual Studio Code, Figma, JIRA, Object Oriented Programming, DSA

Education

Dr. BR Ambedkar National Institute of Technology

Jalandhar, India

Bachelor of Technology, Industrial and Production Engineering - CGPA: 7.74

2019 - 2023

Certifications

AWS Cloud Practitioner CLF-C02 - AWS

SQL Basics for Data Science - Coursera, UCDAVIS
